

# Cross Country For Youth

COMMUNITY IMPACT PROJECT SNAPSHOT  
SPONSORED BY AIG DELIVERED BY LOWES AND INTERCITY

“  
*What we now have with this solution is priceless. There was no way we could do this without this team and we are now able to measure students who have not done Cross Country for Youth with those who have and show the result of this program. This will save so much time and make reporting more accurate and efficient.*”  
- Alvin Jefferson,  
Cross Country For Youth

## Impacting the lives of youth with skills to live healthy lives with character

Cross Country for Youth’s mission is to impact the lives of youth with the skills they need to run cross country and live healthy lives with character. They reached out to Apparo because they were in need of a data collection and reporting tool that could not only collect data but also report outcomes and make calculations.

Apparo matched them to a volunteer team who recommended and implemented solution. The solution not only performs all the needed calculations, but also provides dashboards that are easy to view/use.

**Nonprofit Team:** Reggie McAfee and Alvin Jefferson

**Volunteer Team:** Alise Salvetti and Renato Cabral

- ANTICIPATED PROJECT IMPACT
- Improved operational efficiencies- collection of data is cleaner and more accurate as well as reporting.
  - Improved efficiencies on reporting- reporting will cover more areas, faster access to data, automated calculations and more potential funding
  - Cost avoidance -the tools are free and allow multiple users making it more cost effective than purchasing a survey tool

“  
*I always feel happy when I do something I love, which is coming up with technical solutions and it was great to help with such a wonderful cause.* - Renato Cabral
