FIT FOR THE GODS

Presented by: **BANK OF AMERICA**

THE POWER TO build a stronger community

What would you like the power to do?

At Bank of America we are here to serve, and listening to how people answer this question is how we learn what matters most to them, so we can help them achieve their goals. We had one of our best years ever in 2018: strong recognition for customer service in every category, the highest levels of customer satisfaction and record financial results that allow us to keep investing in how we serve you. That translates to a great team delivering the best capabilities for our clients and for our communities.

We are proud to serve North Carolina and help drive it forward by sharing our success, through the lending, investing, giving and volunteering that you need to remain vibrant and vital.

<p>\$170 Billion Total FDIC deposits¹</p>	<p>\$1.2 Billion Home loans²</p>	<p>\$4.7 Billion Loans outstanding to commercial business</p>	<p>\$566 Million Credit provided during 2018 by Bank of America to small businesses in North Carolina</p>
<p>\$56 Million in grants and matching gifts during the last five years addressing economic mobility and community needs³</p>		<p>\$29 Million pledged by employees to local nonprofits and community needs in the last five years⁴</p>	<p>1.1 Million employee volunteer hours contributed locally during the last five years</p>

Charlotte is home for me and my team. We know this community and we are here to serve your needs and help you achieve your goals. That's why we're always asking:

What would you like the power to do?

Let me know at:
charles.f.bowman@bankofamerica.com

Charles Bowman
Charlotte Market President

As always, protect your personal data. For assistance with a personal financial issue, please visit your nearest financial center.

¹ Total deposits within this market as of June 30, 2018, which may be inclusive of Consumer, Global Wealth and Investment Management (GWIM), Global Banking, and Global Markets deposits.

² Home loan dollars reflect a rolling 12-month total of First mortgage loan production figures including Consumer Banking and GWIM.

³ Community involvement amounts represent a cumulative 5-year period of contributions.

⁴ Employee local nonprofit pledges may include: disaster relief, deceased/retirement dollars, volunteer grants and volunteer service awards.

ConnectivIT® Ball

Welcome to the 2019 ConnectivIT® Ball!

Our ConnectivIT theme this year is “fit for the Gods”. In addition to being a play on words, with ‘IT’ snuck in, we chose this as a representation of our standards. It is our goal that the IT resources, education and connections we provide to our nonprofit partners – and the resulting impact – are of a caliber that would truly be fit for the gods.

And we’re not just patting ourselves on the back – this standard encompasses you. In being here tonight, you are a part of the life-changing work that is happening in the greater Charlotte area. Your support of Apparo’s work is enabling:

- More food in hungry stomachs
- More medicine healing the sick
- More high school graduations
- And so much more

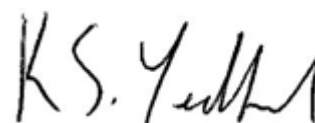

Tonight is a celebration of this impact. We hope you enjoy yourself as you learn about the work you are enabling. Whether this is your first Apparo event or 50th, we hope you feel right at home tonight, and join us at an upcoming event soon.

Thank you for attending Apparo’s 13th annual ConnectivIT® Ball. Your continued support is improving lives throughout the community, and proving that technology and passion can change the world. Together, we can shape a community that is fit for the Gods.

Gratefully,

Kimberly Lanphear
CEO
Apparo

2019 Mission Possible: The Economic Opportunity Award

Sponsored By

Congratulations to the 2019 Mission Possible Award Finalists

Ada Jenkins Center

The Ada Jenkins Center improves the quality of life for the residents of our communities through the integrated delivery of health, education and human services. They proposed to technologically advance and further standardize their goal planning process with families through a subscription to an online platform. Client-partners may access this platform from their own phone or computer to see a digitized version of their family goals, communicate goal progress, and share information with their CSS and other Ada Jenkins staff.

Junior Achievement of Central Carolinas

Junior Achievement of Central Carolinas' volunteer-delivered, kindergarten-12th grade programs foster work-readiness, entrepreneurship and financial literacy skills, and use experiential learning to inspire students in our community to dream big and reach their potential. Junior Achievement of Central Carolinas proposed a mobile app, designed to track Junior Achievement student data and allow for follow up and engagement of participants after programming.

Mental Health America of Central Carolinas

Mental Health America of Central Carolinas provides mental health education and advocacy, and suicide prevention in the Charlotte area. They proposed acquiring technical assistance to make modifications to their current customized Salesforce database or the creation/purchase of a new database to have a succinct way of capturing the data related to the information and referral calls that Mental Health America of Central Carolinas receives.

2018 Mission Possible Award

As the recipient of Apparó's 2018 Mission Possible Award, sponsored by Accenture, Charlotte Bilingual Preschool implemented the student management software system PowerSchool to help them efficiently manage all data related to students and families. This new, more efficient system is expected to give Charlotte Bilingual Preschool staff a combined 2,000 extra hours back each year, allowing more focus on students and programming. It is also expected to provide more accurate and complete data, resulting in improved program quality that is better aligned with student and family needs.

Local. Global. **Partner.**

BUILD ON

The graphic features a central image of the Earth with a network of nodes and lines overlaid on it. Surrounding the globe are several hand-drawn sketches and icons representing AWS services and concepts: a sequence of circles with numbers 30, 60, and 90; a laptop icon labeled 'Developers'; a bar chart labeled 'Lambda'; a cloud icon labeled 'Capacity'; a snowflake icon labeled 'Amazon Rabbit'; a funnel icon labeled 'Elastic Storage'; and a server rack icon labeled 'Amazon EC2'. The text 'aws is how' is written in a white, lowercase font at the bottom right, with the Amazon smile logo underneath it. Below the text is the URL www.BuildOn.aws.

Introducing Ask Data

Type a question and instantly
get a response, right in Tableau

Answers come in the form of rich data visualizations with no need to understand the structure of your data, so you can get to your insights faster.

Deep integration with Tableau

Ask Data works with all existing data sources, both live connections and extracts, in Tableau Server and Tableau Online, with no additional setup required. Continuously refine your question as you explore your data, then share the findings with others as a Tableau workbook.

Results you can trust

Ask Data interprets the intent behind ambiguous and vague questions to give you accurate results. Easily customize the underlying semantic model to your organization by adding synonyms, definitions, and calculations.

IT'S FOR NONPROFITS

Thanks to the generosity of our Community Impact Project sponsors, Apparo is able to improve lives in the greater Charlotte area every day.

Giving

Committed to supporting our communities.

We strengthen communities in multiple ways. From volunteering with local charities, funding literacy and science in schools, investing in the future workforce, and supporting environmental programs – we're dedicated to making a difference every day.

 Each year, the Duke Energy Foundation funds more than \$30 million in charitable grants across the regions we serve.

BUILDING A BETTER FUTURE

We are proud to support Apparo and applaud the Mission Possible finalists for their work to build a better future for Charlotte.
