

# ZABS Place

COMMUNITY IMPACT PROJECT SNAPSHOT  
PROJECT DELIVERED BY CENTRIC CONSULTING

## (((CENTRIC)))

### A Recommendation Already Showing Results

“After spending countless hours searching for a program ...we were ready to give up. Apparo and Kevin from Centric Consulting took the time to understand our needs and find a solution that will be a great fit. We were so excited to get started that we jumped right in during the software trial period and we're already starting to see growth and a greater sense of accomplishment from our ZABS Talent.”

- Rochel Groner, Director, ZABS Place

## Helping young adults with special needs harness their special talents to transition to rewarding careers

**Problem:** ZABS Place coaches do not have a consistent way to track goals and progress. Leadership does not have the reporting capabilities they need to share metrics with funders, the community and their Board.

**Solution:** Apparo matched ZABS to a volunteer from Centric Consulting to help them select a talent management system to meet their tracking and reporting needs.

**Nonprofit Team:** Bentzion Groner, Rochel Groner

**Volunteer Team:** Kevin Anderson

### Outcomes + Community Impact

Implementation of new software will enable:

- Increased ability to plan, assess and track progress by coaches, thus improving their ability to provide tailored training to each participant, driving smoother transitions to working life.
- Access to reporting and metrics needed to boost fundraising success.

### Powerful Volunteer Experience

“As a parent of a child on the Autism Spectrum, it was my privilege to work with ZABS Place. Together we found a software solution that will be a game changer in tracking skill development to help these young adults reach their full potential.”

- Kevin Anderson, Project Volunteer, Centric Consulting
