Volunteering with Apparo is a perfect fit with the culture of giving at M&S Consulting. Giving back to the communities in which we work is very important to us. We have the capabilities and skills to make a difference to a nonprofit. It’s a win for us because it makes our team feel good about doing good, stay actively involved in our community and gain valuable experience.

By supporting Lily Pad Haven, we were able to help a group of people who have been through an incredibly difficult situation. That was really meaningful to me and very rewarding and fulfilling to my team. One M&S consultant was so inspired that he went on to get a certificate in nonprofit management.

Daidre put her Salesforce expertise to work as a skilled volunteer to help Lily Pad Haven improve the way they support survivors of human trafficking.

Her work freed valuable time for the organization that they now use for:

- providing more psychiatric care
- raising increased awareness of human trafficking
- fundraising

Daidre was nothing short of tremendous to work with. I had never used Salesforce before and it was daunting to me, but she made the process of integrating all of our data into Salesforce really easy and smooth. Her team was incredible to work with and they all really worked well together. It has been a tremendous help to us, saving us so much time. I would love to work with her again.”

-- Alexa Nagy, Community Outreach and Development Coordinator, Lily Pad Haven

Volunteer Spotlight:
Daidre Fanis
- Executive Director & Practice Leader, M&S Consulting
- President, SIM Charlotte Chapter
